

## Music Policy

### WE GUARANTEE TO PLAY THE MUSIC YOU SELECT

'The Craig Bowyer Discotheques Music Guarantee'

If you have already spent some time browsing our brochure or website you'll know that our goal is to provide the service and dependability you need during the planning and on the day of your function, but when it comes down to the evening, it's the music that really does the talking. Our music policy has evolved with our experience and now, at it's pinnacle, has become 'The Craig Bowyer Discotheques Music Guarantee'. We guarantee to play all of your requests accepted at the time of booking, subject only to the limitations of playing time. Of course if you want to leave the choice to us, we'll be happy to judge the mood on the night. Our DJs are well versed in 'reading a crowd' and are there to play for you and your guests, not for themselves!

Our dedicated *Music Librarian* checks your list against our library of over 50,000 songs. We recommend that your list contains a maximum of 10 'must-plays', 15 'nice-to-hears' and 5 'do not plays' to give us a guide. Your requests are needed one month in advance so we can source any tracks we need to obtain (must be available on current UK release). You will be notified in the unlikely event of one of your prioritised songs not being available. You are of course welcome to arrange for the DJ to play your own CDs for those real rarities! The DJ will also accommodate other requests on the night if possible, ensuring that no-one goes home disappointed.

**No other disco company offers this level of service. Our policy is your guarantee of a perfect night.**
